

## MACHINE PARAMETERS

## TECHNICAL SPECIFICATION

Model	GIT9060UV
Head Qty	2—4pcs
Resolution	Max 720*2400dpi
Printhead	Ricoh GEN5i
Draft mode	10m <sup>2</sup> /h
Production mode	6m <sup>2</sup> /h
Quality mode	3m <sup>2</sup> /h
Color	K/C/M/Y/LC/LM/W/V Optional
Printing size	900*600mm
Printing thickness	0-130mm
Data interface	USB
PC	Window 7、Window10
Printing media	Glass, Ceramic, Metal, PVC board, Hollow sheet, Acrylic, Leather, Wood etc.
Ink type	Eco-friendly UV-curable ink
Input format	Adobe Postscript Level 3、PDF、JPEG、TIFF、EPS、AI
Curing	High-effect UV LED
Printer weight	350KG
Printer size	2200*1260*1250 mm
Power	4kw
Power requirement	Single phase AC 208-240V±10%、50/60Hz、25A
Environment	Independent, clean, low dust, less light, good ventilation workshop
Temperature	18°C ~ 30°C (64°F ~ 86°F)
Humidity	30% ~ 70% (no condensation)
Ventilation	It is recommended to use an overhead exhaust fan 600 cfm

Above specifications are subject to change without prior notice.

## PRINTER DETAILS

### Mini size ,great breakthrough

Industrial printhead and control system  
 Space-saving body for excellent printing quality  
 Enhanced all steel frame with overall reinforced treatment  
 Dual high precision lead screws for stepping

### Complete function performance

Auto thickness detector for various materials  
 Anti-crash system with continuous printing when stop unexpected.  
 Dual efficient UV curing lamp for great adhesion  
 Media positioning systems support small size in industrial standard.  
 Separated negative pressure systems for white and KCMY.  
 Auto-cycle white ink supply ensure long-term jetting without nozzle dogged

### Unparalleled color configuration

CWC-WC-CW-CWKWC-3+C-WCV in one control system  
 Outstanding spot color and spot white jetting performance.  
 Optional 8 colors ( KCMY+Lc+Lm+Orange+Green)printing in one time.

### Better small size printing

Industrial printhead with high jetting-power ensure exact ink drop location  
 3.5pl exact drop location ensure 1pt alphabet at total clear image .  
 Gibson patent media positioning system ensure exact small size printing.

### Expanded applications

Build-in extended rotary device for bottles  
 High-drop jetting for curling media  
 Max 130mm printing height expand your media margin

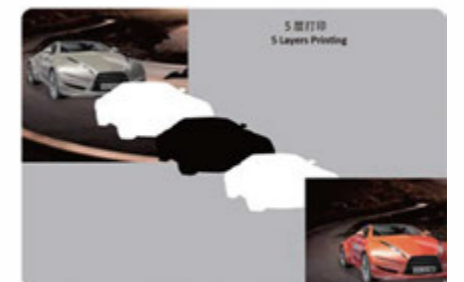

## PRINTING MODE

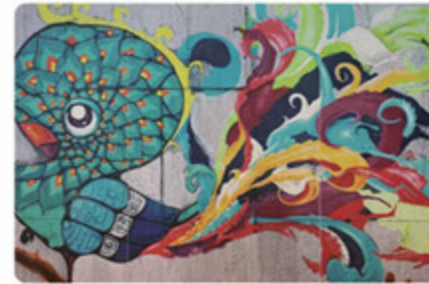

White Upper-layer

Image A-White-Image B

5 layers printing

Embossed printing

White Under-layer

White-color-varnish

## APPLICATIONS

Watch

Handicraft

Mouse

Bottle

Nail decal

Laptop

Crystal film

Toy
